FILM PROPERTIES

TULSICRYL VVB-55 features a white milky emulsion with a non-tacky, clear surface, good flexibility, and alkali resistance.

FEATURES

TULSICRYL VVB-55 offers excellent scrub resistance, exterior durability, pigment binding, water resistance, and a tough yet flexible finish.

APPLICATIONS

TULSICRYL VVB-55 is a high-solid terpolymer emulsion for premium interior paints, mid to high-grade interior and exterior paints, and primers. It is an excellent binder for interior and exterior coatings, offering outstanding durability and alkali resistance. Its high binding power ensures long-lasting performance, enhancing the paint's weather stability, and making it ideal for high-quality coatings.

HANDLING & STORAGE

TULSICRYL VVB-55 has a shelf life of 12 months from the date of manufacture, provided it is stored under shade, away from direct heat and sunlight, and well protected from freezing.
